Introduction to Computation (CS2201)

Lecture 1

Kripabandhu Ghosh

CDS, IISER Kolkata

Introduction to the Instructor

Name: Kripabandhu Ghosh
Highest Qualification: PhD, Indian Statistical Institute, Kolkata (CS)
Areas of Interest: Information Retrieval/Data Mining/AI on Legal Domain, Information Extraction from Social Media text, Fairness in Text Summarization, Machine Learning, Natural Language Processing
Email: kripaghosh [AT] iiserkol.ac.in

Course CS2201 details

Schedule

- Every Wednesday (3 - 4 pm): Theory class
- Every Monday, Tuesday, Thursday and Friday (10 am - 1 pm): Lab classes

Total marks: 100

- Assignments
- Class tests
- End Sem exam

Course CS2201: contents

Introduction to Computation

- Application of Python in numerical methods (Root finding, Interpolation, Integration etc.)
- Numpy and other useful modules of python
- Introduction to Data Science: Clustering, Classification etc.

Implementation

Basic Python

Mandatory Weekly Feedback from the Students

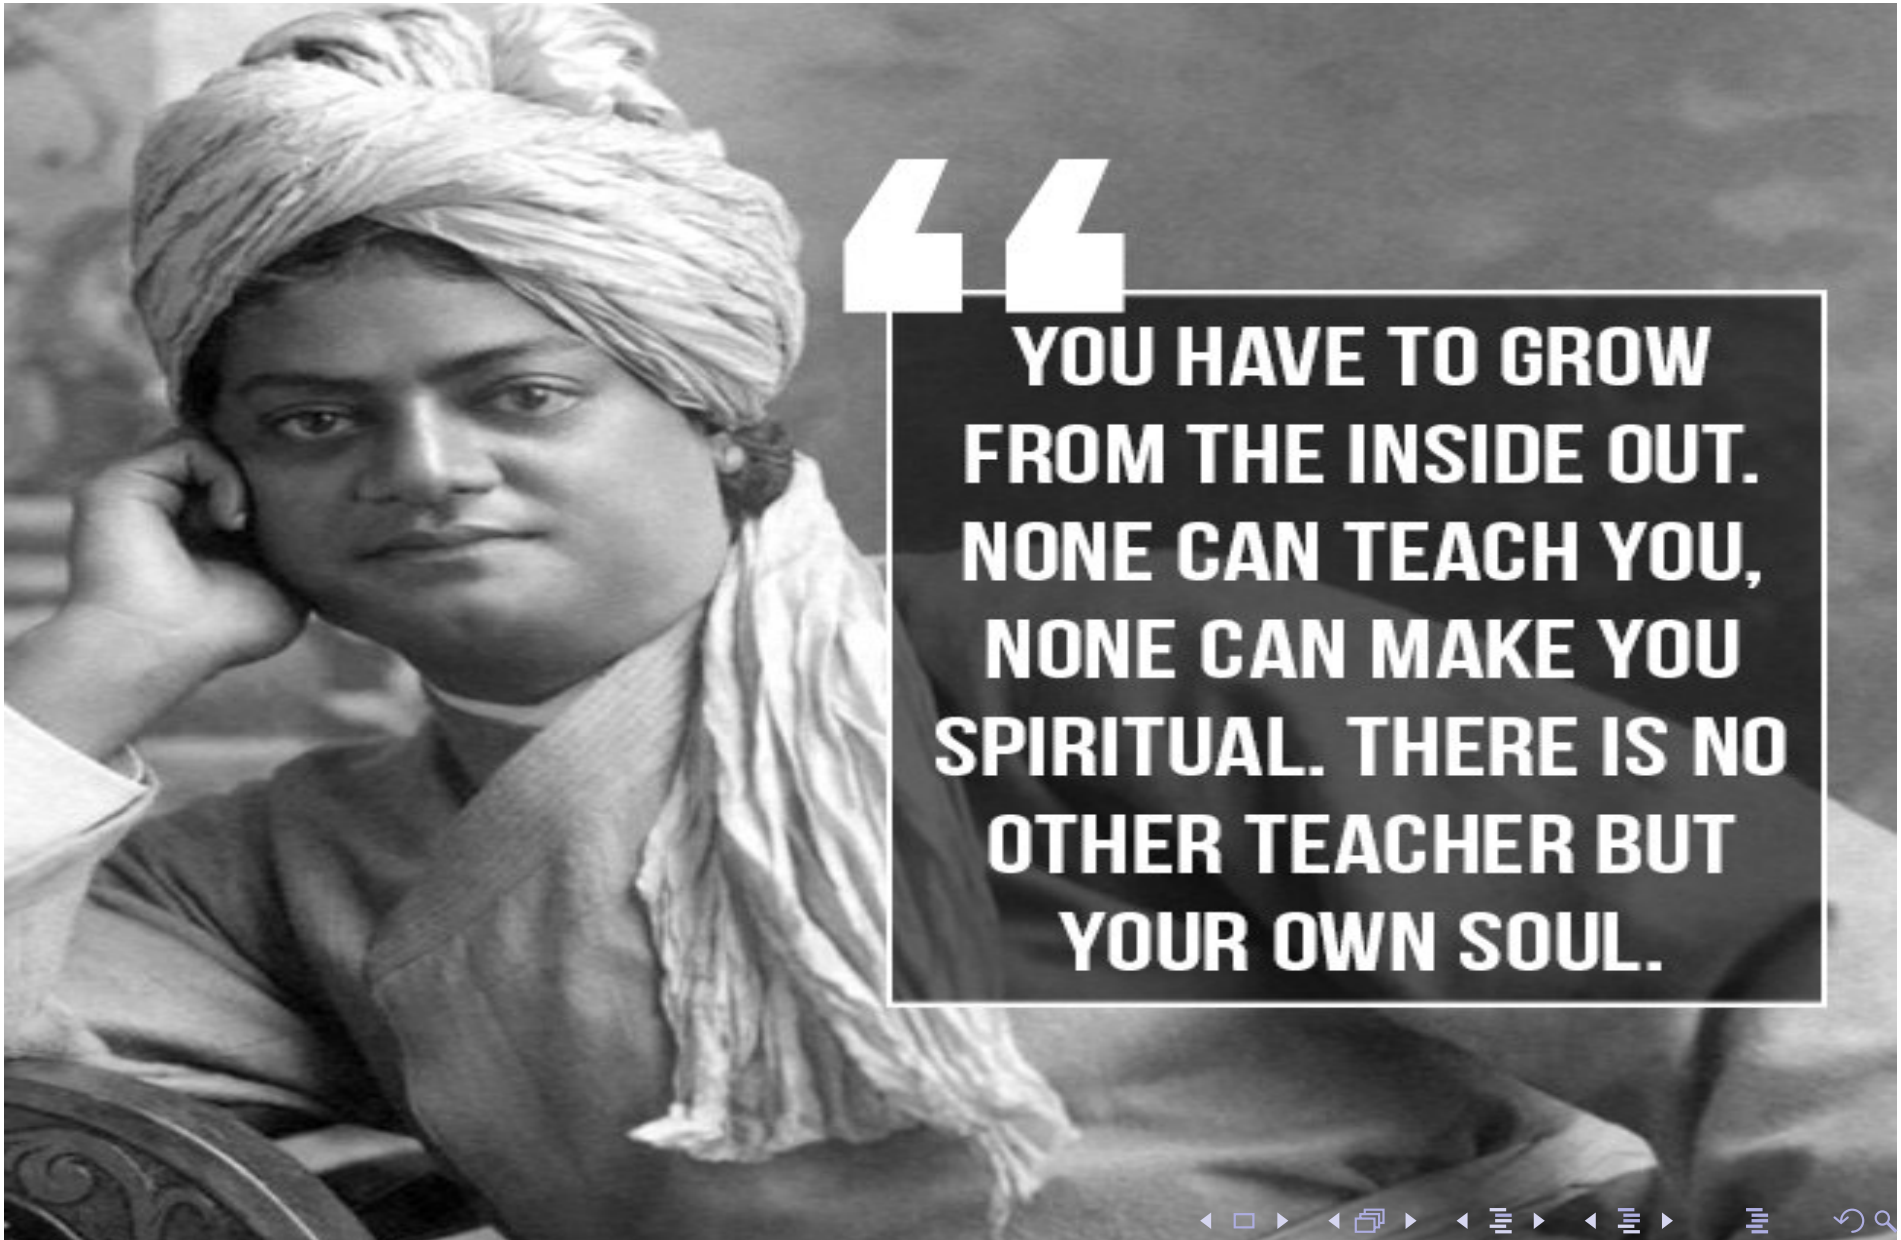
Honesty and Hard work



Honesty and Hard work

Honesty and Hard work

- I will put my 100% effort in the course (attend, persevere, reach out)
- I will **not** – under no circumstances – indulge in unfair means

THANK YOU !!!
